

My Dream School

School wouldn't be far from home, so I wouldn't have to walk a long time to go to school.

Teachers would be cool and friendly, and they would give no homework.

Lessons wouldn't be boring too.

The subjects that we would learn in my dream school would be :

Arts, French , English, Sport (If we can call it "subject"), Music, Spanish, Science and Life of Earth, and Physics – Chemistry.

We could eat chewing – gums and listen to music in the school, and we could run in the corridors.

We could wear the clothes that we want, because uniforms suck, and we would have a better food at the refectory.

Finally, we wouldn't have sanctions, because we could do what we want !

This would be great, and this is my dream school !
