

My ideal school ...

My ideal school is a boarding school by the sea in California. It's a kind of art school, like in the movie «Fame» where we practice dance and art, where we play drama and music, where we learn English, French, Spanish and Chinese as well as other subjects which are optional. It's a school for pupils from twelve to seventeen. It is a big school where there are various rooms such as a cinema, sports facilities, a library, a swimming-pool etc. The cafeteria is a restaurant with very varied food.

In my school, there are classes from Monday to Thursday, from 9:30 to 2:30 pm . There are three sports hours a week .

Outside class hours, students can go to the beach, walk in the street, do what they want but they must come back before 9:00 pm .

To avoid intrusions there are detectors of people that let only students and teachers of this school access the school . There aren't sanctions and students are free to dress as they want as long as clothes are not too vulgar.

My ideal school is not so different and special from others but it is mine and it makes all the difference to me .
