

My perfect school

In my perfect school there is no internal regulation. The direction of the college consists of children only.

Pupils choose their schedules, their courses, their professors and their timetables. Pupils choose their forms too and their food. Teachers let pupils choose their classmates, their places and the composition of their forms. Teachers allow pupils to wear what they want for clothes and for jewels.

There is no repeating; late slips, absence notes, punishments and hours of detention are forbidden. There is no lesson, no tests, no homework and no marks. School stationaries are distributed in class so there is no need of any schoolbag.

In every course pupils watch a movie. We can eat in class (cakes, candies, drinks...). Pupils do what they want in class.

The breaks last 1 hour except the lunch break which last 2 hours and a half.

There is a soccer field and a swimming pool next to the grammar school.

Bus lines are settled to go to school.

The canteen is a McDonald's.
